

Anthem's Lumenos® plans cover preventive services recommended by the U.S. Preventive Services Task Force, the American Cancer Society®, the Advisory Committee on Immunization Practices and the American Academy of Pediatrics. The preventive care benefit includes screenings, immunizations and other services to detect medical conditions in advance and keep you healthier in the long run.

To encourage consumers to receive the appropriate preventive services, these services are covered at 100% when received from an in-network provider.* Plan deductibles and health account dollars do not apply to these services. If preventive care services are provided by an out-of-network provider, then the plan deductible and out-of-network coinsurance responsibility will apply, and health account dollars may be used to cover these costs. If any of these services are received for diagnostic purposes, for example, a colonoscopy when symptoms are present, the appropriate plan deductible and coinsurance will apply and available account dollars may be used to cover costs.

To allow doctors to prescribe the preventive care services appropriate for the individual consumer, frequency and age restrictions do not apply to these preventive care services. (Note: Some immunizations are only FDA approved for certain genders and ages.) The following is an overview of the types of preventive services covered:

Well Baby and Well Child Preventive Care

Preventive Physical Exams

Screening Tests including the following:

- Eye chart vision screening (full vision exams not included)
- Hearing screening
